The Coleman-Cromwell factional fight in Norfolk county is attracting a great deal of attention among the political leaders. It is the bellef of a great many that the decision of the committee, recognizing the Cromwell side as regular, will finally stand, as the Cromwell people are known, not only to be satisfied with the present status of the case, but they are violently opposed to any further hearing. The Democratic State Committee has The Democratic State Committee has issued a strong paper in answer to some of Colonel J. Hampton Hoge's recent utterances on the stump in his campaign for Governor. The paper is headed: "Shall Virginia be Traduced?" "The Republican Candidate for Governor says that: "Recentles of Demogratic Fassilism. Virginia by Traduced." The circular will be widely distributed from the Democratic State headquarters. the Democratic State headquarters.

It is a matter of regret in political circles that Chairman Doherty will be unavoloably absent from the city on Thursday night, when the campaign will be comed at the Academy of Music. He is called to Danville on important business, and has Jesignated Captain Cunningham Hall to preside temporarily at the meeting. Captain Hall will speak for only a few moments and will then surrender the gavel to Chairman Ellyson.

The City Democratic Committee will meet again at Murphy's on Friday night, and on each succeeding Friday night until the campaign is over. Perfect harmony is prevailing among the members, and the Montague, Swanson and Echols followers are pulling together for the success of the entire ticket.

Captain Joseph E. Willard, Democratic rominee for Lieutenant-Governor, is in the city, and was in the convention hall last night. Captain Willard is in good spirits over the outlook for Democratic uccess this fall.

Next Monday will be a big day in Rockingham. It will be County court day, and the Democrats and Republicans will both have speakers on hand. The opening by Professor Miles was a masterly and scholarly effort, showing the necessity of change in our organic law, and a full reply to the disaffection on the part of some of the people about the-tardiness of the convention. He impressed upon the audience the necessity of full considration and interchange of views on the various vital questions com-ing before the convention, and added that he convention was composed of men who the convention was composed of men who thought and acted for themselves and under the domination of no one, and actuated only by their patriotism and love for their State. He discussed the different franchise clauses before the convention, and stated it was the object of the convention to desfranchise no white man, showing that it was easy for any one to fit themselves for the sufrage, but that if any white man wished to act as a shield to protect the nexTo, that when the shot went through and struck him the fault would be his
